Subject: Update on Expected JH Baxter upcoming work

WA 3019

18A

12/16/04

Rene, We just met with Pat to talk about our support needs from OEA, and I want to update you on what should be coming in from Baxter in the next few months. They will be submitting their SI Report March 31st. This will be a comprehensive site characterization. I'll really need you to look at it. Then we will be getting a CMS (60 days after we approve the SI). Then a CMI Workplan (60 days after approval of the CMS). I figure all of these things will happen during the current fiscal year, as I think the corrective measures alternatives will be fairly straightforward. I will need you to look at these documents and make sure what they are proposing is reasonable. Hopefully you'll have some time for this. Thank you in advance. -Jan
